

Imagine how you'll feel tomorrow,
after sleeping in a PURE Room tonight.

PURE[®]

There's nothing like a fresh, crisp, allergy-friendly PURE Room to help relieve the stress of traveling. It gives you the confidence of knowing you'll rest easy and the assurance that you'll wake up feeling recharged and energized.

This process includes adding an in-room purifier to continuously filter the air, deep cleaning of the air handling unit and insertion of a removable tea tree oil cartridge, use of hypo-allergenic pillow and mattress covers, and specially treated hard and soft surfaces to minimize allergens. PURE rooms are installed and recertified every six months.

Visit pureroom.com to book your PURE Room and experience the best night sleep ever.
