Embassy Suites Loveland Hotel, Spa & Conference Center

Colorado enjoys 300 days of sunshine each year; more than San Diego and Miami! **The Embassy Suites Loveland Hotel, Spa and Conference Center** is prepared to provide your group attendees an exceptional meeting experience. And, since the conference center was designed to accentuate the sunshine with floor to ceiling windows in the function rooms, clerestory windows and skylights in the pre-function area, and decorated with rich colors of the high mountain desert, your guests will return home invigorated by their visit regardless of the time of year.

With 40,000 square feet of meeting and function space, the Embassy Suites Loveland Hotel, Spa and Conference Center is equipped to accommodate almost any group request. The Front Range Ballroom is the third largest hotel ballroom in the state of Colorado with 28,800 square feet of divisible meeting space. The ballroom features a 28' high ceiling which makes for impactful audio/visual presentations and unique décor opportunities. For example, when is the last time you saw a plane hanging from the ceiling of a hotel ballroom? Or do you need to display your new company logo on the side of a semi truck at the opening session? We can do that! And if internet capabilities are important, we have a 14.5mbps fiber optic cable that is burstable to 100mbps for video conferencing and distance learning - this ensures everyone attending (even those in their office) see the presentation as if they are sitting in front of the presenter.

The bright contemporary décor contributes to the inspiring meetings and special events that have been produced in our conference center. Our team of catering and culinary professionals are prepared to design an event that is as unique or creative as you desire. From 49 Mile menus (we're located at 4,900 feet above sea level) using locally sourced food and beverage options to culinary team competitions held in our main kitchen or off-site catered events in Estes Park and Rocky Mountain National Park and themed events that have yet to become trends or cliché.

In addition to the flexible meeting spaces, the rotunda of our conference center with its built-in registration counter, storage and office facilities are a meeting planner's delight. Natural light, comfortable seating areas, electronic reader boards and close proximity to our audio/visual office all add substantially to your guest's comfort and your command of the conference activities. The rotunda serves many functions for your group including exhibit area, entertainment venue, as well as the usual registration and networking space.

The new Embassy Suites Loveland Hotel, Spa & Conference Center combines flexible function space with a beautiful setting at the gateway to Rocky Mountain National Park. With our experienced team of conference center professionals, and high-tech audio/visual resources, you'll enjoy every convenience you would expect from a Denver meeting venue plus a whole lot more. And with similar drive times from Denver International Airport that you would experience to the suburban communities surrounding Denver such as Boulder, Broomfield, and the Tech Center, each of your attendees will appreciate the added luxuries of a two room suite, full Cooked-to-Order Breakfast, our evening Manager's Reception and our full service spa - Spa Botanica. View our Group Value Dates, submit a request for proposal, or give us a call and we will help you enjoy the same great meeting experiences that so many other planners have since we opened - in fact, we'll introduce you to them so you can learn why we were ranked as the #6 Embassy Suites in the World in 2010. We look forward to helping you create an exceptional meeting here in Northern Colorado.
